

life AGLOW

HINKLEY

From the first glimmers of light across the morning sky to the soothing dusk that envelops us at the close of another day, our lives are made richer by the radiance of light.

LIGHT CREATES DIFFERENT
PERSPECTIVES, REKINDLES EMOTIONS
AND PROVIDES PROTECTION.

Light makes us joyous, rejuvenated, relaxed and celebratory, embracing us in its luminous warmth.

HINKLEY
LIGHTING

design • illuminate • enjoy

Light inspires our outlook and our lives, brightening each moment spent with family and friends.

AT HINKLEY LIGHTING,
WE ARE COMMITTED
TO KEEPING YOUR
LIFE ILLUMINATED,
ENLIGHTENED, AGLOW.

“WE ARE A FOURTH GENERATION FAMILY BUSINESS. WE’RE PROUD OF OUR HERITAGE AND EXCITED ABOUT OUR FUTURE.”

RICK WIEDEMER
President, Hinkley Lighting
Cleveland, Ohio

Hinkley Lighting is driven by a passion to create lighting fixtures that help our customers achieve the very best vision of their home and lifestyle.

Hinkley Lighting began in 1922 as a small family lighting company and has developed into one of the most well-respected designers and manufacturers of high-quality lighting fixtures in the world. Our lighting has always been defined by superior materials, distinctive designs and unparalleled craftsmanship. Continuing our family heritage with a fourth generation of visionary leaders in the lighting industry, Hinkley Lighting continues to evolve while maintaining its tradition of unique designs and enduring quality.

We understand that your home is so much more than a physical place; it’s an emotional space and an extension of your personal style. We are committed to creating lighting fixtures that blend design and function, adding that quiet sophistication to your home’s decor while effortlessly updating each room.

Explore all of our brands and find the perfect style to fulfill your lighting needs. Each of our collections is available in a wide range of designs, from elegant and traditional to sleek and contemporary. We use only the highest quality materials and offer an extensive array of finishes to complement every style of interior and exterior design.

HINKLEY LIGHTING : Classic, timeless collections featuring a variety of designs ranging from traditional to contemporary.

FREDRICK RAMOND : Chic, fashionable lighting with a focus on modern elegance and luxurious details.

HINKLEY LANDSCAPE LIGHTING : Combining sophistication with durability, this collection complements our outdoor lighting families and provides the latest technology and outstanding workmanship.

Hinkley Lighting has always stood for quality, innovative design and above all, a commitment to keeping your *lifeAGLOW*.

HINKLEY LANDSCAPE LIGHTING 408

Numeric Index 414

Throughout the 2011-2012 Hinkley Lighting catalog, we have utilized a variety of important icons and finish codes to assist you with your lighting selections. Below is a key describing each of these icons in detail as well as a list of our extensive product finishes with abbreviated codes for easy reference.

HINKLEY ICONS

FIXTURE EXCEEDS 50LBS.
Indicates fixtures weighing over 50lbs. Fixtures must be supported independently of the outlet box unless the outlet box is UL listed for the appropriate weight. Required hardware included.

COMBINATION MOUNT
Indicates fixtures that are supplied with the means to be chain hung or mounted flush to the ceiling.

DIFFUSER INCLUDED
Indicates fixtures that come equipped with a diffuser to minimize bulb exposure and soften the intensity of light emitted.

OVAL-SHAPED FIXTURE
Indicates chandeliers that are oval in shape.

ADA COMPLIANT
Indicates fixtures that adhere to the standards and guidelines listed by the Americans with Disabilities Act.

INVISI-MOUNT
Indicates bath fixtures where the mounting hardware is hidden on the back plate.

DAMP LOCATION
Indicates fixtures that can withstand indirect moisture in a protected or sheltered environment.

SELECT-A-LITE
Indicates fixtures that come with sockets that can accept either candelabra or medium-based bulbs.

ENERGY SAVING (ES)
Indicates fixtures that have the option to be engineered as Energy Saving (ES). Fixtures come equipped with GU24 sockets and include self-ballasted, CFL bulbs. Meets California's Title 24 requirements.

DARK SKY (DS)
Indicates fixtures that have the option to be engineered as Dark Sky (DS). Fixtures come equipped with a captive reflector that minimizes light glare upward into the night sky.

Please note Dark Sky conversion may alter fixture construction.

ENERGY SAVING DARK SKY (ESDS)
Indicates fixtures that have the option to be engineered as Energy Saving Dark Sky (ESDS). Fixture comes equipped with the combined technology of Energy Saving (ES) and Dark Sky (DS) configurations. Meets California's Title 24 requirements.

ENERGY STAR (EST)
Indicates fixtures that have the option to be engineered as Energy Star qualified (EST). Fixtures meet strict energy efficiency guidelines set by the EPA and the DOE. Fixtures combine a GU24 socket together with a self-ballasted CFL bulb and a photocell.

LED
Fixtures come equipped with a fully integrated LED panel and built-in driver.

OVERSCALED SEMI-FLUSH MOUNTS

Gaining popularity as a chic alternative to chandeliers is the over-scaled flush mount ceiling fixture. This fixture can make a strong design statement, whether modern and minimalist or with all the glamour of a crystal-embellished design. Replacing your overhead lighting with a grand fixture of this scale can create a dramatic focal point in bedrooms, home offices, laundry rooms or any space where a traditionally-sized flush mount appears inadequate.

STYLE TIPS & IDEAS from fabulous designers

While a home's interior is a thoughtful combination of personal style, architecture and decorative elements, lighting has the power to tie it all together. It is commonly considered the design element that makes the room. Lighting can create dynamic visual statements, enhance mood and atmosphere, and even alter the room's color. Whether building a new home, upgrading both interior and exterior lighting will make a powerful, and immediate impact.

As part of our Life Aglow campaign, Hinkley has collaborated with renowned interior designers to bring you design and lighting tips from the pros. Through individual interviews, Hinkley offers an inside perspective on how designers use lighting to enhance each space they create. Featuring designers from *House Beautiful's* "Next Wave of Designers to Watch" list, as well as other acclaimed designers and editors, we present this concise lighting design overview in three unique sections of our catalog: Chandelier, Bath and Outdoor Lighting.

AMY ELBERT
Senior Architecture Editor
Traditional Home Magazine

Amy Elbert is Senior Architecture Editor at *Traditional Home* magazine, where she writes and edits articles on the subjects of new home construction, whole-house renovations, additions, and kitchen and bath projects. She also oversees *Traditional Home's* coverage of home-related technology and is responsible for a standing Green Space section, which features eco-friendly design and building products and projects.

JILL SHARP BRINSON
Jill Sharp Style, Atlanta, Georgia

Jill Brinson of Jill Sharp Style specializes in creating inspiring ideas in the world of commercial and editorial styling and creative direction. Jill has a formal background in interior architecture and design and thrives on her passion for product design and clever collaborations with individuals and companies. Jill has been featured on the pages of *House Beautiful*, *Southern Accents*, *Self Magazine* and *The Los Angeles Times* and her designs continue to be discussed online throughout coveted design blogs. jillsharpstyle.com

CARRIE FUNDINGSLAND
Houseplay Interiors
Los Angeles, California

Named in *House Beautiful's* "Next Wave of Interior Designers to Watch," Carrie believes your home is a sanctuary and should be a place of peace and inspiration. Carrie has worked on multiple projects all over the world and her impressive client list includes celebrities such as Melanie Griffith and James Denton. houseplayinc.com

LISA RACHELLE MCDENNON
Lisa Rachelle McDennon
Laguna Beach, California

Lisa owns and runs LRM Interior Design. This ASID (American Society of Interior Designers) award winning studio is up for two more ASID awards this year. Named in *House Beautiful's* "Next Wave of Interior Designers to Watch" LRM Interior Design specializes in full service residential and commercial design and has received coverage in *House Beautiful*, *Romantic Homes* and *Victorian Homes* magazines. Her style is described as "Delicious, Dreamy, Decadent." lrmdesign.com

KYLE SCHUNEMAN
Live Well Designs
Los Angeles, California

This rising style expert has a client list including Target, Howard Miller Furniture, *Vogue Living* and *Traditional Home* magazines. Recently named in *House Beautiful's* "Next Wave of Interior Designers to Watch," his inventive work has been nationally showcased on HGTV and the Style Network and he continues to appear in national shelter publications such as *Real Simple*, *Garden Design* and *Dwell*. livewelldesigns.com

REBECCA TIER SOSKIN
Rebecca Tier Soskin Design
New York, New York

Named in *House Beautiful's* "Next Wave of Interior Designers to Watch," Rebecca's philosophy is that each space she designs should become a collaboration of her client's personality and her own innovative and elegant approach to design. She enjoys integrating simple styles with a hint of vintage and a splash of boldness. Her elite clientele continues to grow. rebeccasoskin.com

SARA GILBANE SULLIVAN
Sara Gilbane Interiors
New York, New York

Sara is best known for her classic, modern-traditional style, combining low-key and elegant pieces with a youthful, chic flair grounded in practicality. Named in *House Beautiful's* "Next Wave of Interior Designers to Watch," her work has graced the pages of *Traditional Home*, *House Beautiful* and *House and Home* magazines and continually appears online in design sources such as *Lonny* magazine and several coveted design blogs. saragilbaneinteriors.com

CHANDELIERS

DEFINE YOUR DECOR

“Chandeliers evoke feelings of grandeur, romanticism, whimsy, sophistication...”

CHANDELIER *chic*

THE CHANDELIER HAS EVOLVED INTO ONE OF THE MOST COMMANDING DISPLAYS OF PERSONALITY IN A ROOM. THEY CAN BE PLACED IN LIVING ROOMS, GREAT ROOMS, BATHROOMS, MASTER CLOSETS, CHILDREN'S ROOMS, KITCHENS...THE POSSIBILITIES ARE ENDLESS! THINK OF IT AS THE ULTIMATE ACCESSORY: A STATEMENT PIECE OF JEWELRY IN A SPACE, ADDING THAT EXTRA LAYER OF EXCITEMENT AND SOPHISTICATION. THE ILLUMINATION CAN CREATE A DRAMATIC STAGE FOR ENTERTAINING OR ADD A WHIMSICAL TOUCH TO A FORMAL SETTING, MAKING IT THE PERFECT FOCAL POINT FOR DESIGN INSPIRATION.

"The possibilities are endless! It really depends upon the chandelier. If it has crystals it will create a luxurious sparkle that can dress up the most boring of rooms. If it has a fabric shade or diffuser, it can create a soft warm overall glow. You can also create different moods with the same fixture, depending upon how brightly or dimly lit it is, or how high or low you hang it. You can also create different effects with using multiples or clusters of fixtures."

- Lisa Rachelle McDennon

perfect PLACEMENT

Sometimes rules are made to be broken! Not only are designers and homeowners experimenting with placing chandeliers in less traditional spaces in their homes, they are also getting creative about the placement within that room. Making the decision to hang a fixture lower or higher than recommended can add a creative twist to the presentation of your decor.

"I think the world is feeling less static about where chandeliers and pendants can and should be placed. I am using them lowered way down over coffee tables and end tables. When used in the application of end table, it replaces the pre-requisite lamp, which feels really fresh now. I think they can also be used to great effect on art walls – dangling in a lowered manner in front of or to the side of a group of framed items, large canvases, leaning canvases – whatever – they are essentially adding another layer of "art" to the mix."

– Jill Sharp Brinson

Fixture shown on page 31: Valley 4705 BN, page 85

Fixtures shown on page 32: Sussex 4798 BN, page 57;
Dwell 1328 BK, page 289

Fixture shown above: Chandon 4696 SR, page 51

A man in a dark suit and tie is sitting in a purple wingback armchair. In front of him is a round, rustic wooden table with several wooden bowls and a pear. A large, ornate chandelier with multiple frosted glass shades hangs from the ceiling. The room has green walls and a white door in the background. A staircase with blue carpeting and white railings is visible through the doorway.

“Chandelier placement depends on the height and size of the room and is really a personal preference. The current trend is to hang it in the middle of the room, the table, the central seating area, etc. Make it BIG and BOLD (as long as the room or table can handle it).”

—Rebecca Tier Soskin

mix & MATCH

Today's styles are uniquely eclectic and you should feel comfortable mixing and matching. Chandeliers lend themselves perfectly to this process. You can look for a chandelier that is inspired by the period reflected in the room you are putting it, but you don't have to. Many contemporary designs are a blend of traditional elements with modern materials which makes them work with a variety of decors. Still, when you are mixing styles it helps to stay consistent with your finish selections, which will support a cohesive look without standing in the way of your creativity.

BRIGHT *ideas*

Hinkley's catalog conveniently lists the maximum bulb wattage for each fixture. With this in mind, there are multiple bulb styles to choose from that will customize the look of your fixture, particularly when the bulbs are exposed.

From small flame tip candelabra-based bulbs to Edison-style medium base bulbs, making the right selection allows you to add your own personal style statement to each fixture. Additionally, installing a dimmer control is extremely important and will aid you in controlling the level of light, making a dramatic impact while defining the mood. Having this control also increases the functional flexibility of your space, allowing you to use the space for multiple activities like homework at the dining room table or a romantic dinner for two.

"I have played around in the last couple of years with using unexpected bulbs – round, modern vanity bulbs with a small lamp base really make a huge impact on the vibe of a chandelier and subsequently impact the light level that they throw."

– Jill Sharp Brinson

Fixtures shown on page 34: Cello 4568 AT, page 111
 Fixtures shown above: Casa 4018 OL, page 127;
 Virginian 5120 PW, page 161

SCONCE *savvy*

Often overlooked as a design element, sconces can act as a complement to a chandelier and encourage a layered effect, making the lighting and overall design of the room both appealing and functional. With the ability to direct light into the room at face level, wall sconces are perfect for balancing the amount of light in your space. It is a common misconception that sconces need to “match” the central lighting fixture in the room. They can equally complement such statement pieces by simply staying within the same finish family but choosing a varying style.

“Sconces naturally go with chandeliers and I don’t think they need to be the exact same style as the chandelier... Keep the metals and the finishes the same if you’re choosing different styles to create a harmonious flow.”

– Kyle Schuneman

Fixtures shown above : Hampton 3206 AN, page 62;
Virginian 5120 PW, page 161
Fixture shown on page 37: Ashbury 4087 CM, page 47

GROUP THERAPY

Another eye-catching design trend is to group small chandeliers or pendants together over a kitchen island, dining room table or coffee table. These smaller hanging fixtures can add a unique look and have just as much impact as one larger chandelier.

"It's fine to hang a pair of chandeliers in a large room if the room can handle it. If it's a smaller room, make sure the chandeliers aren't too oversized. Beyond that, a pair of pendants over your kitchen island or a grouping of smaller hanging fixtures in the right room can add a nice detail."

- Rebecca Tier Soskin -

"I just finished a room setting where I used 7 pendants hung over a huge table in varying heights - these were glass pendants with a decidedly Moroccan bent and it was great. Obviously committing to this statement when the room is getting wired is a must!"

- Jill Sharp Brinson -

"If they are quite small, a cluster of delicate whimsical chandeliers can work in a child's playroom or entry hall. Nothing too big and bulky... I am also a fan of hanging several decorative pendants at different heights to play with lighting for a more modern setting."

- Sarah Gilbane Sullivan -

a quick guide to
SIZING AND HANGING
YOUR CHANDELIER

Chandeliers are designed to float in a room as an important part of the decor. Too large and this fixture will overpower the space. Too small and it will look out of place. Placing a chandelier that is too small in a space is likely the biggest mistake. Great designers, therefore, tend to make their decisions on fixtures that may appear slightly larger than might be appropriate. It's generally always best to make the mistake on a fixture being too big than too small.

30"-32"
(recommended)

"I am a classicist at heart and observe the rules of proportion so with chandeliers placed over dining tables, I like the height to be about 30"-36" above the tables for optimal lighting."

— Sara Gilbane Sullivan

MEASUREMENT *guidelines*

To size a chandelier for your dining room, or to be the focal point of your space, measure the length and width of the room and add those figures together. The sum, converted to inches, will equal the diameter that you can use as a guideline when selecting the size of your chandelier.

Example: 14' + 20' = 34' Converted to inches = 34"
Correct Size Chandelier = 34" Diameter

If the resulting measurement (room length + width, converted to inches) seems inappropriate due to the size of your table, size your chandelier three quarters the width of your table.

In most cases, the bottom of your chandelier should sit approximately 30"-32" above the table top.

sizing a chandelier FOR YOUR FOYER

When determining whether to hang a flush, semi-flush, or multi-tiered chandelier in your foyer, be advised that the bottom of the fixture should be at least 7' from the floor.

For two-story foyers, if there is a window above the front door, center the chandelier so it can be seen from outside.

If your foyer is extra-large, you may also want to add sconces. Sconces should be installed 60" from the floor and 6'-8' apart.

TO MAKE SURE YOUR CHANDELIER IS THE RIGHT SIZE FOR THE ROOM IN WHICH IT WILL HANG, CONSIDER THE FOLLOWING:

1. How high is your ceiling?
Taller ceilings demand larger fixtures.
2. What is the size and shape of your table? Island?
The chandelier should complement, not overpower, anything you plan to suspend it over.
3. How big is the room you are trying to illuminate?
Again, be sure the chandelier is not too big or too small for the room.
4. What is the form and design of the chandelier?
Light, airy fixtures tend to look larger.

layering light IN THE BATH

"I prefer to utilize multiple kinds of lighting in the bath. The look of a beautiful wall-mounted sconce keeps the bathroom classic and functional (this gives you a light source near your face). A ceiling mount or chandelier adds general lighting for the bathroom as well as adding a point of interest on the ceiling."

– Sara Gilbane Sullivan

LIGHTING IS CRUCIAL TO HOW WELL YOUR BATHROOM FUNCTIONS, NOT JUST HOW GOOD IT LOOKS. WHETHER YOU'RE BUILDING A NEW HOME OR REMODELING YOUR CURRENT SPACE, TODAY'S BATHROOMS SHOULD BE DESIGNED TO REFLECT YOUR PERSONAL STYLE AND INCLUDE WELL-PLANNED LIGHTING. LAYERING LIGHT IN THE BATHROOM IS THE BEST WAY TO PROVIDE TASK LIGHTING AS WELL AS AMBIENT LIGHTING, STRIKING JUST THE RIGHT BALANCE BETWEEN FUNCTION AND MOOD. Consider your options:

TASK LIGHTING

Task lighting provides adequate light for grooming, such as applying makeup and shaving. The best task lighting at the mirror is a pair of fixtures mounted on the wall, flanking the sink. This is called cross-illumination and provides shadow-free lighting for the face.

AMBIENT LIGHTING

Ambient lighting is achieved by bouncing the light off the ceiling, which softens shadows and creates a flattering effect.

ACCENT LIGHTING

Accent lighting gives depth and dimension to a bathroom, allowing you to illuminate design features, including art, architectural elements or even beautiful tile.

DECORATIVE LIGHTING

Decorative lighting, created by hanging eye-catching fixtures from the ceiling, will dress up the bath and add a layer of luxury.

perfect REFLECTION

When lighting your bathroom, one of the areas requiring the most attention should be on vanity lighting. Ideally fixtures should be mounted on either side of a central mirror. This allows for light to be evenly distributed across your face. The fixtures should be mounted at eye level and approximately 36-40" apart. This helps to eliminate shadows under the eyes and chin.

When installing fixtures on either side of the mirror is not optimal due to size and installation constraints, the next best option is to install fixtures directly over the vanity (approximately 75-80" above the floor). In certain cases, horizontal fixtures can be used in conjunction with the vertical lights to give additional overall illumination to the space.

Fixtures shown on page 181: Shelly 5010 CM, page 210
 Fixtures shown on page 182: Lanza 5100 AN, page 220;
 Hampton 3207 AN, page 64
 Fixtures shown above: Addison 5860 PL, page 233

“I think all types of lighting are important to consider in creating a spa-like feel in your bath. You want the element of romance, an element of chic and an element of functionality.”

- Rebecca Tier Soskin

beauty ILLUMINATED

A bare minimum of 150 watts of light should be used in lighting the vanity and it is always safer to err on the side of too much wattage. In cases where you find that there is too much light, either use lower wattage bulbs or install a dimmer. It is always easier to reduce the wattage of a fixture than to figure out how to increase the amount of light once the fixture is installed.

POWDER ROOM *perfection*

The powder room, typically a main floor half-bath, is often the home's smallest room. Yet, if you measure its worth by the amount of traffic a room gets per square foot, the powder room could easily be the most valuable space in your house. For this reason, you'll want to make sure you get the design right, especially the lighting, which can contribute dramatically to the overall effect of your space. Don't be afraid to get creative and express your personal style. Choose lighting fixtures with character that will provide both task and ambient lighting while adding a little something special to the decor.

"Powder rooms are the jewel boxes of a home. No rules apply. I love playing with scale – it can easily add drama and interest to a smaller space."

– Carrie Fundingsland

SOOTHING *sanctuary*

Adequate bathroom lighting is not only essential for grooming, but the bathroom is becoming a sanctuary where you can relax and recharge. Creating a space that feels comfortable and imparts a feeling that's clean and inviting can set the right mood for a spa-like retreat. As the bathroom increasingly becomes a place to relax and recharge, complete with luxurious amenities like a steam shower, spa tub or a fireplace, the lighting requires extra thought. And when it's done right, the payoff is great. After all, this is the room where you start and end your day. Just don't forget to follow the simple rules of form and function.

"In this case, all aspects of the lighting must be well thought out and executed. No one will enjoy a "spa" experience if they cannot see well or if they don't look fabulous when looking in the mirror! So, you need to use a combination of task lighting (especially at the sinks and make-up areas), as well as ambient and mood lighting in order to create the desired relaxation that one needs in a spa environment. Also, you want to avoid seeing the source of the lights – so using diffusers and shades is important – nothing will kill a relaxing mood more quickly than being stunned with the "burn" of a light bulb in your eyes. Dimmers are also key."

– Lisa Rachelle McDennon

"The most important element to creating a spa-like or relaxed environment in the bath is control. Several lighting situations and dimmers are a must when creating this type of atmosphere."

– Carrie Fundingsland

choose your PALETTE

It's important to take into consideration your color scheme, including the finish of your bath fixtures. Light, bright colors can give the illusion of more space plus add that crisp, clean feel while warm brushed gold or bronze finishes can add that timeless, classic feel.

~*~

"I always think bathrooms should feel fresh and clean so my color schemes always sway that way. I like the lighting finishes and metals to coordinate – so shiny, crisp lighting is always my go-to."

- Kyle Schuneman -

make a STATEMENT

In a small space like a bathroom or powder room, you have the opportunity to make a strong design statement to your guests and convey your home's unique personality. Choosing an intense wall or ceiling color, exotic wallpaper or hanging an interesting chandelier can make a dramatic impact in the room and add an element of surprise off the hallway.

~*~

"Scale is definitely important. If your ceilings are low then a large lighting fixture won't work even if you are trying to create drama. Instead of finding something large, find something with intricate details to create that drama and interest."

- Kyle Schuneman -

ENLIGHTENED

ALONG WITH THE OTHER TYPES OF LIGHT THAT ARE IMPORTANT IN THE BATHROOM, INCLUDING TASK AND ACCENT LIGHTING, NATURAL LIGHT SHOULD NOT BE FORGOTTEN. SUNLIGHT IS OBVIOUSLY ENERGY EFFICIENT AND PROVIDES A WELCOMING FEEL OF OPENNESS AND FRESHNESS TO A SMALL SPACE.

"I love natural light EVERYWHERE — for me, it is the most important starting point of a project, understanding how it affects each room — it is the KEY to why we feel a particular way in any space. With regard to bathrooms — natural light is so critical — and fixtures that mimic natural light, those using halogen bulbs, are always my preference."

– Jill Sharp Brinson

INCANDESCENT VS. HALOGEN *in the bath*

Both incandescent and halogen bulbs are viable options for the bath. Fixtures that feature halogen bulbs typically have a lower-profile, and can feature a more contemporary design since the bulbs themselves are smaller than incandescent. It is true that halogen bulbs give off a brighter, whiter light than their counterparts (incandescent), so it's simply a personal choice as to what kind of light you want to see yourself in.

welcome HOME

"Illuminating a deck, patio, or other outdoor dining and sitting area allows you to use those spaces in the evening hours, and enjoy the sounds, fragrances and fresh air of the outdoors. Outdoor lighting encourages people to step outside and creates a wonderful indoor-outdoor connection beyond daylight hours."

– Amy Elbert

OUTDOOR LIGHTING ENHANCES THE BEAUTY OF YOUR PROPERTY, MAKES YOUR HOME SAFER AND MORE SECURE AND INCREASES THE NUMBER OF PLEASURABLE HOURS YOU SPEND OUTDOORS.

A well-lit front entrance enables you to greet guests and identify visitors. Wall lanterns on each side of the door will give your home a warm, welcoming look while ensuring the safety of those who enter. Under a porch or other overhang you can feature chain-hung lanterns or flush mounts. A separate rear or side entrance can be illuminated with a single wall lantern installed on the keyhole side of the door.

STYLE TIP : Coordinate the style of your outdoor lighting with the style of your home's exterior. Creating a unified look on the outside makes a sharp first impression, and leaves room for variety on the inside.

enchanted EVENING

Lighting is one of the easiest and least expensive ways to cast an enchanting spell on any outdoor space. Properly placed lighting can define an outdoor patio or backyard hideaway while adding stylish charm. An added benefit is being able to enjoy your home's landscaping from inside, creating a cohesive space both inside and out.

"Simply put, outdoor lighting creates enchantment. Lighting can create garden focal points, defining areas of interest. It's wonderful to highlight garden features, such as arbors, birdbaths or water features. Many gardeners enjoy planting white or "moon" gardens that glow at night, with the help of subtle lighting. Outdoor lighting is a wonderful way to define intimate sitting and dining areas that are particularly conducive to relaxation and conversation. Large bushes and shrubs can present interesting textures and outlines when they are highlighted or you can create dramatic pools of light near plants or shrubs.

In addition, lighting is an effective way to showcase architectural elements of your home, such as archways, porches or brackets. Swimming pools offer a fabulous opportunity with outdoor lighting. Lights on water create magical, shimmering effects."

– Amy Elbert

“Lighting is becoming more and more important outdoors as we extend our spaces to create “rooms” outside.”

– Kyle Schuneman

OUTDOOR LIVING *today*

The desire for outdoor living spaces continues to thrive as homeowners are spending more time at home both indoors and out. Creating a charming and comfortable outdoor space allows you to enjoy the beauty of nature well into the evening. The continual evolution of outdoor lighting, furniture and accessories make the creation of these outdoor havens more practical and more stylish than ever before.

"I think as we get busier and busier, creating a space that combines nature with modern function is of the utmost importance."

– Carrie Fundingsland

OUTDOORS *inside*

Don't be afraid to place outdoor lanterns in your home's interior. Current outdoor lighting designs span the gamut from traditional lanterns to sleek pocket style sconces, which "opens the door" for getting creative with your decor. Choosing outdoor lanterns for an interior setting can add a distinct element of style if it works with the overall aesthetic of the home.

"I think using old-style barn sconces above bedside tables is a great way to free up the space on your nightstand and create a quirky fun design element."

– Kyle Schuneman

GOING GREEN

Today, we know how important it is to take care of our planet. As homeowners we now have options that can help in this effort, including energy efficient lighting. Hinkley offers a variety of options that allow you to design a lighting plan with the environment in mind:

ENERGY SAVING (ES)

Fixtures come equipped with GU24 sockets and include self-ballasted, CFL bulbs. Fixtures meet California's Title 24 requirements.

DARK SKY (DS)

Fixtures come equipped with a captive reflector or other design feature that minimizes or eliminates light glare upward into the night sky.

ENERGY SAVING DARK SKY (ESDS)

Fixtures come equipped with the combined technology of Energy Saving (ES) and Dark Sky (DS) configurations. Fixtures meet California's Title 24 requirements.

ENERGY STAR (EST)

Fixtures meet strict energy efficient guidelines set by the EPA and the DOE. Fixtures combine a GU24 socket together with a self-ballasted CFL bulb and a photocell.

LED

Fixtures come equipped with a fully integrated LED light source and built-in driver.

PHOTOCELL

Fixtures come equipped with a photocell that prevents the fixture from staying illuminated during daylight hours.

 Fixtures shown on page 257: Luna 1664 TT, page 274

66"

1 LANTERN
1/3 the height of the door

2 LANTERNS
1/4 the height of the door

HOW TO SIZE *an outdoor lantern*

Selecting the right-sized outdoor lantern can sometimes pose a challenge. Follow these sizing guidelines for a fit that's just right.

The height of an outdoor lantern should be based on the height of the door:

DON'T UNDERSIZE YOUR LANTERNS: As a rule of thumb, your lanterns should appear to be about half the size of your door from 50' away.

FOR 1 LANTERN: If you place a lantern on only one side of the door, it should measure one-third the height of the door. The center of the bulb should rest 66" above the threshold of the door.

FOR 2 LANTERNS: When two lanterns are used, they should each measure approximately one-fourth the height of the door. The center of the bulb should rest 66" above the threshold of the door.

TIP: In either case, if you choose a fixture with a long tail or top scroll, pay attention to the overall bulk of the fixture.

TIP: When in doubt, always go larger.

A photograph of a garden with a stone house, a wooden pergola, and several lit landscape lamps. The scene is lush with greenery, including trees and bushes. The house has a white window and a stone facade. The pergola is made of dark wood. The lamps are small, square, and lit, casting a warm glow. The overall atmosphere is serene and well-maintained.

HINKLEY *landscape lighting*

Hinkley provides a collection of decorative and functional landscape lighting that will help you complete your home's lighting plan. To view our full line of landscape lighting, including solid brass and LED landscape options, visit us online or see our full-line Hinkley Landscape Lighting catalog. www.hinkleylandscapelighting.com

"Consider the architecture of your home when you're choosing landscape light fixtures, so the style is appropriate to the period, scale and design of your home. It's often nice to repeat a motif, material, or color in the house to blend the structure with the outdoor fixtures. In most cases, you want the light to highlight a feature in your garden, not draw attention to itself. For that reason, fixtures made with natural materials, nature inspired colors, and organic shapes are particularly well suited. When choosing a fixture, consider too how it will look when exposed during the winter months when there is little plant growth."

— Amy Elbert

NIGHT *aglow*

It is important to consider all aspects of your home's property when developing your lighting plan, including the landscaping. Landscape lighting works with your other outdoor lighting to reveal your home and the surrounding grounds with a warm glow after the sun goes down. You will want to remember to conceal the light source behind shrubs and trees when possible – except when the fixture itself is a decorative element – to be sure the focus is on the landscaping and natural surroundings.

warm GLOW

Dimmer controls aren't just for chandeliers and other interior lighting. Fitting your outdoor fixtures with dimmer controls will give you the flexibility to design a lighting plan with multiple uses and decorative effects.

SAFETY *first*

The proper outdoor lighting plan not only adds beauty and value to your home, but it also is the first precaution in ensuring safety and security for you and your guests. It is important to illuminate paths, walkways, driveways, around decks, patios and stairs to create an easy-to-navigate landscape while protecting against unwanted guests.

"The initial importance of outdoor lighting is for security and safety. How many times have you gone to a new home at night for a party and you can't see the address or you are tripping over planters, etc. because the outside is not lit properly? What about being inside and making sure that you can see your own property well enough to see incoming visitors, either welcomed or not? The secondary factors are aesthetic."

– Lisa Rachele McDenon

LANDSCAPE

NIGHT ILLUMINATED

“Landscape lighting encourages people to step outside and creates a wonderful indoor-outdoor connection beyond daylight hours.”

- AMY ELBERT

Hinkley provides a collection of decorative and functional landscape lighting to help you complete your home's lighting plan. Whether you choose to highlight architectural features of your home, extend your living space, or accentuate an object of interest, we have the perfect fixtures to meet your lighting needs. To view the complete collection of Hinkley Landscape Lighting, see our Full-Line Landscape Lighting Catalog or visit us online at www.hinkleylandscapelighting.com

HARDY ISLAND COLLECTION

THIS HEAVY DUTY, SOLID CAST BRASS COLLECTION IS A STRIKING COLLABORATION OF FORM AND FUNCTION.

Designed to withstand the harshest environments in style, Hardy Island offers fully enclosed lamps and a finish that ages naturally through oxidation and patina. Named for the ruggedly beautiful island off the coast of British Columbia that bears its name, Hardy Island is rated for coastal applications and offers an extended warranty due to the strength of its cast brass construction.

NEXUS 15v DC LED High Performance Landscape Lighting System

ITEM	WIDTH	HEIGHT	WIRE LENGTH	DESCRIPTION	GLASS/LENS	LED WATTAGE	LUMENS	INCANDESCENT EQUIVALENCY
15401 BZ	14½"	7"	36"	90° Elbow with 3w LED	High Impact Acrylic	3w 15v DC	140	12w
15402 BZ	19½"	2½"	36"	T-Connector with (2) 3w LED	High Impact Acrylic	(2) 3w 15v DC	280	20w
15405 BZ	21"	7"	36"	90° Elbow with 6w LED	High Impact Acrylic	6w 15v DC	280	20w
15406 BZ	32"	2½"	36"	T-Connector with (2) 6w LED	High Impact Acrylic	(2) 6w 15v DC	560	35w
15409 BZ	1", 9¾" Max.	2¼", 11¾" Max.	36"	180° Swivel with 3w LED	High Impact Acrylic	3w 15v DC	140	12w
15410 BZ	1"	8"	36"	Mini-Bollard with 3w LED	High Impact Acrylic	3w 15v DC	140	12w
15413 BZ	1", 15¾" Max.	2¼", 17¾" Max.	36"	180° Swivel with 6w LED	High Impact Acrylic	6w 15v DC	280	20w
15414 BZ	1"	14"	36"	Mini-Bollard with 6w LED	High Impact Acrylic	6w 15v DC	280	20w
15436 BZ	2½" Dia. (shroud)	¾", 5¾" Length	36"	30° LED Spot Light	Clear Tempered	6w 15v DC	325	30w
15466 BZ	2½" Dia. (shroud)	¾", 5¾" Length	36"	60° LED Spot Light	Clear Tempered	6w 15v DC	325	30w
15906 BZ	1"	6"		6" Nexus Stem				
15912 BZ	1"	12"		12" Nexus Stem				
15918 BZ	1"	18"		18" Nexus Stem				
15924 BZ	1"	24"		24" Nexus Stem				
15925 SS*	5½"	17"		Stainless Steel 15v Driver		150w Max.		

*Additional drivers can be found in Hinkley's Landscape Lighting Catalog. Ground spike and wiring kit included. Timers, photocells and additional accessories can be found in Hinkley's Landscape Lighting Catalog.

THIS CATALOG INCLUDES A LARGE OFFERING OF PRODUCTS THAT MEET SPECIFIC ENVIRONMENTAL GUIDELINES.

Consistent with our corporate strategy, we have printed this catalog using vegetable-based inks, paper made with wind power and FSC certified paper which consists of 10% post-consumer recovered fiber. Our paper selection preserves 222 trees for the future and prevents 20,522 lbs of greenhouse gases from being emitted into the atmosphere.

Please consider joining our environmental efforts and consider recycling this catalog by passing it along to your family and friends.

Hinkley Lighting stands behind the quality of our lighting fixtures with product warranties that are among the strongest in the industry. For details of warranty coverage on specific products, please refer to www.hinkleylighting.com or consult a qualified Hinkley retail distributor.

Hinkley Lighting is a proud partner of the American Lighting Association

FREDRICK RAMOND
ESTABLISHED 1988

The Hinkley Lighting family is committed to keeping your "Life Aglow" and we are united in our efforts to support breast cancer research and funding initiatives. Through our participation at both national and local levels, we are proud to contribute financially to fund research, generate awareness and encourage education. Our mission is to help eliminate breast cancer as a health concern through our passionate involvement and commitment to this important cause that affects so many of our employees, our families and our customers.
