THE WORLD’S FINEST CEILING FANS™

The Casablanca collection represents the successful synergy of elegance, versatility, efficiency, endurance and comfort. Each ceiling fan is created with an eye for timeless design, assembled with care from high-quality parts and engineered for superior energy efficiency to be a classic fixture in a home that is enjoyed for generations.

WHAT’S NEW

Casablanca’s latest introductions include 10 new ceiling fan collections in an array of timeless styles that will add a breath of fresh air to every room of your home—indoors and out!
QUALITY IN EVERY DETAIL™
Casablanca stands alone in its approach to the design, engineering and manufacturing of ceiling fans. We have made a long-term commitment to quality and invite you to compare the features of a Casablanca fan with any competitive product. Every detail is given meticulous attention — from design to components and manufacturing to ease of installation. Casablanca's attention to detail adds value to every fan, providing unprecedented performance for the life of your investment.

1 BOTTOM PLATE
The bottom plate encloses the lower part of the motor housing. Casablanca uses a variety of materials including solid die-cast virgin zinc, heavy-gauge deep-drawn steel, and structurally reinforced resin for enhanced beauty, protection, and quiet operation.

2 SWITCH HOUSING
The switch housing encloses primary fan controls. It features heavy-duty, die-cast virgin zinc or steel for exceptional durability. In addition, the exclusive design allows for easy installation of Casablanca light fixtures, providing a finished, integrated look.

3 MOTOR HOUSING
Casablanca offers die-cast and steel construction, for unmatched motor durability. The housing’s plated or handpainted finish stays bright and beautiful throughout decades of use, with no more care required than dusting with a soft cloth.

4 PERMA-LOCK™
The Perma-Lock™ system connects the fan to the downrod. Casablanca’s 1/2” diameter Perma-Lock™ design provides improved appearance and stable connection. This works in perfect combination with the patented Hang-Tru® canopy. (See pages 134-135 for more details.)

5 BLADES
Unrivaled in the industry, Casablanca’s blades are crafted with six layers of wood in a cross-laminated pattern and finished with three outer layers of real furniture-grade wood veneer for lasting beauty and durability. Some Casablanca fans feature carved wood blades for exceptional design detail.

6 BLADE HOLDERS
Casablanca’s blade holders provide an essential link between blades and motor. The blade holders are made of heavy-duty, reinforced die-cast virgin zinc and are tested thoroughly for reliable performance.

XLP-2000™ and XLP-2100™
The workhorses of the Casablanca product line for more than 10 years and used in a number of top-selling models. These motors deliver exceptional performance and noise-free operation for the life of the fan.

XLP PLUS®
An enhanced version of the XLP motor, it is larger and more powerful than any competing motor in its class and is utilized in bigger fans and those with longer blade spans.

XTR200™
Strikes the perfect balance between power and efficiency and is utilized on higher-end, indoor/outdoor models to provide maximum movement.

DIRECT DRIVE™
Designed and engineered for specific applications to work flawlessly for the life of the fan. Many Direct Drive™ models are ENERGY STAR® qualified.

DC
Don’t let the size fool you. This high-efficiency permanent magnet direct current motor is extremely powerful. It’s ENERGY STAR® qualified and four to five times more efficient than typical fan motors.

MOTOR
Rather than buy “off the shelf” generic motors, Casablanca designs, engineers, and manufactures motors that provide power and quiet operation for a variety of applications.

EVERY CASABLANCA FAN IS BACKED BY 120-DAY IN-HOME SERVICE

Should your Casablanca fan not meet your satisfaction, we will send a trained representative to your home to service it. Simply call us at 1-800-715-0393 for referral to your local Authorized Service Center. If In-Home Service is not available in your area, Casablanca offers pre-paid freight to make it easy for you to send the fan to the Casablanca Factory Service Center. It will be repaired and returned to you at no charge.

Casablanca’s Comprehensive Warranty, the most extensive in the ceiling fan industry, also includes:

LIFETIME MOTOR WARRANTY
All Casablanca fan motors, even on Damp- and Wet-rated models, are guaranteed for life.

ONE-YEAR PARTS AND ELECTRONICS WARRANTY
Each fan includes a one-year warranty on finish, component parts, accessories, and electronics.

With this extensive coverage, you can enjoy the beauty, quality, and performance of your Casablanca products for decades to come.

BEAUTY HAS NEVER BEEN SO EFFICIENT

Casablanca is dedicated to creating fans that work smarter, not harder, so that each element is fine-tuned to contribute to overall savings in energy costs. The powerful Casablanca motors move more cubic feet of air per minute (CFM) while using significantly less energy. Fan blades are set at the optimum pitch to provide maximum airflow at each speed setting. Even at the highest setting, each fan consumes about the same amount of power as a 100-watt light bulb.

Many Casablanca fans are ENERGY STAR® qualified and provide even greater energy efficiency (look for the ENERGY STAR logo throughout this catalog). Specific fan models are equipped with highly efficient compact fluorescent bulbs, and are California 24 compliant for maximum energy savings.

For your convenience, we’ve included this informational energy chart on every ceiling fan page:

<table>
<thead>
<tr>
<th>Airflow</th>
<th>Electricity Use</th>
<th>Airflow Efficiency</th>
</tr>
</thead>
<tbody>
<tr>
<td>X,XXX cfm</td>
<td>XX w</td>
<td>XX cfm/w</td>
</tr>
</tbody>
</table>

58” to 48” ceiling fans have airflow efficiencies ranging from approximately 71 to 88 cubic feet per minute per watt at high speed.

49” to 60” ceiling fans have airflow efficiencies ranging from approximately 51 to 176 cubic feet per minute per watt at high speed.

MONEY SAVING TIP: Operating a fan in an empty room wastes energy, so turn it off when leaving the room.

**Energy Information**

- Airflow: 2,004 cfm
- Electricity Use: 22 W
- Airflow Efficiency: 90.3 CFM/W

**New:** Long-life LED flickering bulbs
This is where it all began… the original Casablanca fan. The Victorian series marries classic turn-of-the-century appeal with contemporary innovation and convenience. The richness of the ornate design is enhanced with badge-style blade holders. Optimum performance is achieved with a 15° blade pitch.

In the electric era of the 1800s, fans were characterized by spiral ceiling rods and centrally placed blade holders. The 19th Century fan pays tribute to these early traditions and adds elements of classic gaslight designs. The intricate, ornate patterns recall decorative influences of cast metal parts and tin-type moldings reminiscent of the period.

FEATURES

- XLP-2000™ motor / Lifetime motor warranty
- 54” or 46” blade span / 15° blade pitch
- 4- or 5-blade configuration
- Multiple blade finish choices available (blades sold separately)

Group B Light Fixtures (see pages 127-129)
With the grandeur reminiscent of a beautiful Spanish fountain, or hermosa fuente, the Vicente makes a dramatic statement in even the largest rooms. When embellished with its decorative 13-inch downrod, its flourishes command your attention. But it’s the fan’s performance that holds you enthralled. With its artisan-quality craftsmanship, the Barolo ceiling fan is equally suited for an elegant villa or today’s Mediterranean-style homes.

**ORNATE**

- Direct Drive™ motor / lifetime motor warranty

A new spin on the original five-bladed fan, the Panama DC features a larger, 54-inch span and our extremely powerful DC motor. That means it can accommodate a larger room with higher efficiency—and it’s ENERGY STAR-qualified. A new, true classic. The tried-and-true ceiling fan now with a modern-day twist, our standard Panama design with Direct Drive™ motor is ENERGY STAR-qualified. It moves air up to 20 percent more efficiently, which helps you conserve energy, save money and protect the environment. Think that feels good? Wait until you turn it on.

- Group A Light Fixtures (see pages 124–127)
- Group B Light Fixtures (see pages 127–129)

**MALIBU STAR®**

The refreshing design of the Malibu Star will captivate your imagination. A bicycle sprocket serves as the hub, and the nautical look results from the airy silk fabric blades tensioned by fiberglass fishing rods. This large fan will become the focal point of any room.

**FEATURES**
- XLP-2000™ motor / lifetime motor warranty
- 84” blade span / 15º blade pitch
- Set of 5 exclusive silk blades included
- Chrome hardware accents
- Low Ceiling Adapter (LCA) is not compatible
- Minimum 9’ ceiling required
- Uses 12” downrod (included)

**DIMENSIONS**

**ENERGY INFORMATION AT HIGH SPEED**
- Airflow: 5,170 cfm
- Electricity Use: 109 w
- Airflow Efficiency: 47 cfm/w
The streamlined curves, contemporary styling and quality craftsmanship that are hallmarks of classic Italian design have been incorporated into the Modena II. This graceful fan features an integrated halogen light and Dynamic Blade™ engineering with injection-molded ABS blades.

**FEATURES**

- Direct Drive™ motor / lifetime motor warranty
- 47" blade span / patented Dynamic Blade™ engineering
- Set of 5 exclusive injection-molded ABS blades included
- Integrated 100-watt downlight with one T4 halogen bulb included
- Slanted Ceiling Adapter (SCA) is not compatible without part 192220xx (see pages 134–135)
- Low Ceiling Adapter (LCA) is not compatible

The compact silhouette and Colonial-inspired design details of the Vermont ceiling fan make it an ideal choice for traditional homes with lower ceilings. Five carved wood blades and a Scavo glass downlight add classical elegance while ensuring year-round comfort in living rooms, family rooms, kitchens, and other interior settings.

The understated Silhouette II fan combines whisper-quiet performance with a low-profile design that enables it to blend seamlessly into a ceiling. Mounted with an integrated medallion, the fan is an ideal solution for rooms with low ceilings.

**FEATURES**
- Direct Drive™ motor / lifetime motor warranty
- 54” blade span / 15º blade pitch

**CONTRIBUTED BY CASABLANCA®**

Shown with BB50 Architectural White blades, K46A-72 four-light fitter, and CSG16 side glass.
The design of the La Fleur ceiling fan was inspired by the belief that comfortable, lived-in environments can be elegant, too. Delicate embellishments on the blade irons and optional light fixture and vintage-inspired styling add a deliciously feminine touch.

Wilderness Collection is a graceful nod to this grand tradition. The spectacular, removable silhouette display of bears, moose and Douglas firs set against a back-lit mica light fixture provides a warm glow to any room.

HERITAGE™
During the Industrial Revolution, innovations in manufacturing enabled artisans to create furniture from cast iron. The Heritage fan incorporates many of the design details featured in antique castings, including vertical ribbing on its motor housing, raised type on the switch cap and a custom cobblestone texture on the fan body, cap and inset portions of the blade medallions.

The ETL Wet-rated Heritage is available in three finishes. The optional exclusive Wet-rated light kits include a beveled-glass lantern suitable for illuminating large spaces, a globe lantern with frosted opal glass, and a four-light fixture.

Note: Must use accessory control to operate light fixtures without a pullchain.
**WAILEA®**

The ETL Damp-rated Wailea fan, inspired by Casablanca's popular Capistrano and Lanai fans, is perfectly suited for small spaces. This 31-inch-wide fan is ideal for bathrooms, laundry rooms, walk-in closets and kitchens where ventilation is needed.

**FEATURES**

- Direct Drive™ motor / lifetime motor warranty
- 31" blade span / 25º blade pitch (optimized for maximum air movement)
- Set of 6 custom All-Weather ABS blades included
- ETL rated for damp or humid locations
- Moisture-resistant motor / stainless steel hardware
- Use only Damp- or Wet-rated light fixtures in damp locations
- Low Ceiling Adapter (LCA) is not compatible when used in damp or humid locations

**COMPATIBLE LIGHT FIXTURES**

- Group A Light Fixtures (see pages 124-127)
- Group B Light Fixtures (see pages 127-129)

**CONTROLS**

- 3-Speed Pullchain (D) (included)
- Adapt•Touch™ Wi-Fi (optional—indoor only)
  - Three speed remote control with full-range light dimming. Includes wall plate bracket

**DAMPER**

- 41U11D Snow White motor with Snow White All-Weather ABS blades
- 41U546D Brushed Cocoa motor with Brushed Cocoa All-Weather ABS blades
- 41U45D Brushed Nickel motor with Matte Black All-Weather ABS blades
- 41U46D Rustic Iron motor with Rustic Iron All-Weather ABS blades

**DIMENSIONS**

- A: 11.34”
- B: 11.93”
- C: 3.00”
- D: 8.50”
- E: 5.60”

**ENERGY INFORMATION AT HIGH SPEED**

- Airflow: 3,127 cfm
- Electricity Use: 51 w
- Airflow Efficiency: 61.9 cfm/w
Estrada

Casablanca creates fans for every environment and mood. The Estrada is casual and colorful, with wrought iron trim inserts that harmonize with outdoor furniture decor. ETL Damp-rated, the Estrada is specially adapted for humid locations.

**Features**
- DirectDrive™ motor / lifetime motor warranty
- 52" or 44" blade span / 15º blade pitch
- 5-blade configuration
- Multiple All-Weather blade finish choices available (blades sold separately)
- ETL rated for damp or humid locations
- Use only Damp- or Wet-rated light fixtures in damp locations
- Stainless steel hardware / moisture-resistant motor
- Low Ceiling Adapter (LCA) is not compatible when used in damp or humid locations

**Controls**
- 3-Speed Pullchain (D) (included)
- Adapt-Touch™ W-52 (optional — indoor only)
- Three-speed remote control with full-range light dimming. Includes wall plate bracket

**Energy Information at High Speed**

52" Blade
- Airflow: 6,734 CFM
- electricity use: 89 watts
- Airflow Efficiency: 75.5 CFM/watt

44" Blade
- Airflow: 5,239 CFM
- electricity use: 62 watts
- Airflow Efficiency: 83.7 CFM/watt

**Dimensions**

**Twain™**

This exquisite fan has been forged to replicate the look of ornamental castings from furniture displayed in 19th-century English parks. The lattice-weave pattern on the fan body, cast type on the upper motor housing, botanically inspired blade irons, and integrated lighting with faux alabaster glass make the Twain one of a kind.

**Features**
- XTR200™ 30mm motor / lifetime motor warranty
- ETL rated for damp or humid locations
- 46" blade span / 14º blade pitch
- Set of 5 exclusive outdoor carved featherwood blades included
- Moisture-resistant motor / stainless steel hardware
- Integrated 150-watt uplight with six 25W bulbs included
- Integrated 100-watt downlight with two 50W T4 halogen bulbs included
- Low ceiling adapter (LCA) is not compatible
- Requires additional hanging support (included)

**Controls**
- W-81 (F) (included)
- Four-speed wall control with full-range light dimming. No reversing function

**Energy Information at High Speed**

52" Blade
- Airflow: 8,373 CFM
- electricity use: 97 watts
- Airflow Efficiency: 84.3 CFM/watt

44" Blade
- Airflow: 6,673 CFM
- electricity use: 89 watts
- Airflow Efficiency: 75.5 CFM/watt

**Dimensions**
**UTOPIAN**

The versatile Utopian fan is ideally suited for humid environments. Smooth contours and simple lines provide a clean, progressive look that enhances décor without distraction. For bathrooms, kitchens and verandas, the Utopian is the perfect choice.

**FEATURES**
- Direct Drive™ motor / lifetime motor warranty
- 50” or 42” blade span / 16º blade pitch
- Multi-speed / metal blade finish choices available (blades sold separately)
- 4-speeds rated for damp or humid locations
- Use only Damp- or Wet-rated light fixtures in outdoor or damp locations
- Low Ceiling Adapter (LCA) is not compatible when used in damp or humid locations

**COMPATIBLE LIGHT FIXTURES**
- Group A Light Fixtures  (see pages 124–127)
- Group B Light Fixtures  (see pages 127–129)

---

**CONTINENTAL™**

Casablanca brings the grand formality of the Beaux Arts period to today’s homes with the Continental ceiling fan. This Damp-rated fan’s faux alabaster light fixtures and botanical motif beautifully complement cast iron and aluminum outdoor furniture.

**FEATURES**
- XTR200™ motor / lifetime motor warranty
- 60” blade span / 14º blade pitch
- Set of 5 exclusive outdoor carved featherwood blades included
- Moisture-resistant motor / stainless steel hardware
- Integrated 150-watt uplight with six 25w bulbs included
- Integrated 100-watt downlight with two 50w T4 halogen bulbs included
- Low Ceiling Adapter (LCA) is not compatible
- Requires additional hanging support (included)

---

**DAMP CONTROLS**

- 4-Speed (F) W-81 (included)
  - Four-speed wall control with dual-rotary system for full-range light dimming and speed control

### STANDARD-STYLE BLADES

Our standard blades are anything but, with specially constructed plywood layers to eliminate warping and a variety of stain and paint options. Blades are not for use in damp or wet locations.

### BADGE-STYLE BLADES

All the same exceptional features of our standard fan blades, but compatible with even more fan styles. Blades are not for use in damp or wet locations.

### COMPATIBLE FAN COLLECTIONS

Barlo, Brescia, Capistrano, Cottage, Metropolitan, New Orleans, Victorian and Wilderness. Compatible with Estrada, Lanai and Utopian when used in a dry location.
**ALL-WEATHER BLADES**

Built exclusively for outdoor environments, these high-quality blades made with durable ABS plastic will withstand the elements, retaining their beauty for years to come.

**17” BADGE-STYLE BLADE FINISHES**
- B817 Matte Snow White
- B818 Matte Black
- B821 Weathered Pine
- B826 Dark Walnut

CONCERT BREEZE LIGHT FIXTURE

A light fixture and sound system all in one, the Concert Breeze mounts to most Casablanca fans, or directly to your ceiling. This groundbreaking Soundolier® technology utilizes an exclusive 2.4 GHz wireless system that’s easily adapted to your television, stereo, MP3 player or any other audio source for 360 degrees of hi-definition sound.

FEATURES

• Mounts to most Casablanca ceiling fans or directly to ceiling
• CSLK-11 and CSLK-73 rated for damp locations
• CSLK-45 rated for indoor use only
• Compatible with many audio sources such as MP3 players, televisions and stereo
• Remote control included for separate operation of light and audio functions
• Integrated 120 watt bowl light fixture
• Includes three 40w candelabra bulbs

FINISHES

CSLK-11 Snow White (Swirled Marble glass)
CSLK-73 Oil-Rubbed Bronze (Italian Amber Scavo glass)
CSLK-45 Brushed Nickel (Swirled Marble glass)

COMPATIBLE FANS

Accademy Cottage Key Largo II Utopian
Breeze* Cottage Wat* Liano Ventura

**ACCESSORIES**

**CONTROL OPTIONS**

**INTEGRATED CONTROLS**

With simple two-wire installation and intuitive Integrated Controls designed exclusively for — and included with — specific fan models, Casablanca fans are easy to install and even easier to use. The Integrated Controls include such features as adjustable fan speed and direction settings, lighting levels, and even home security, for total environmental enhancement.

**ACCESSORY CONTROLS**

Casablanca also offers a complete line of optional Accessory Controls, which allow homeowners to optimize the functionality of their fans based upon personal preferences. The Adapt•Touch™ control adds remote control convenience for 3-Speed and 4-Speed Casablanca fans with a Hang-Tru™ canopy. Casablanca also offers wall-mounted Accessory Controls for both fan and light control with either slide or rotary operation.

**IntelTouch3® (W-64 Dual Light, W-65 Single Light)**

This sophisticated wall-mounted system controls six fan speeds (in either the forward or reverse direction) and full-range light dimming for perfect room comfort and ambiance. Safe-Exit™ provides 20 seconds of gradual light dimming, showing you safely to the door. Home-Safe™ is a chime security feature that controls lights in an irregular sequence, making a home appear occupied. Includes wall plate bracket.

**Direct•Touch® (W-74SL, W-74DL)**

Simple and straightforward, the Direct•Touch wall-mounted control offers four forward and reverse fan speeds, plus full-spectrum light dimming and advanced programmable features including Safe-Exit™, Home-Safe™, Fan Minder™ and Light Minder™. Includes CFL mode.

**Advan•Touch® (W-63 Dual Light)**

Wall-mounted or hand-held, Advan•Touch combines a user-friendly design with a large LCD display and intuitive controls for fans and lighting with programmable features. Advanced programmable features include Safe-Exit™, Horse-Safe™. Use one Advan•Touch to control several fans, or purchase an extra control to operate one fan from different locations. Includes wall plate bracket.

**DC 6-speed**

Simplified control with full-range light dimming and reversing.

**Versa•Touch2® (W-72 Single Light, W-73 Dual Light)**

The refined Versa•Touch2 hand-held remote provides three forward and reverse fan speeds, full-spectrum light dimming and memory and has an optional wall plate bracket. Versa•Touch2 may be used alone to control several fans, or purchase extra controls to operate a single fan from different locations. Includes wall plate bracket.

**Prime•Touch® (W-505)**

This hand-held remote for select fans provides three forward and reverse fan speeds, full-spectrum light dimming and memory. Includes wall plate bracket.

**Intelli•Touch3® (W-84 Dual Light, W-85 Single Light)**

The sophisticated wall-mounted system controls six fan speeds (in either the forward or reverse direction) and full-range light dimming for perfect room comfort and ambiance. Safe-Exit™ provides 20 seconds of gradual light dimming, showing you safely to the door. Home-Safe™ is a chime security feature that controls lights in an irregular sequence, making a home appear occupied. The Fan Minder™ feature incrementally reduces fan speed, maintaining comfort at night. The Light Minder™ feature saves energy by turning lights off automatically after two hours.

**Versa•Touch2® (W-75SL, W-75DL)**

Simple and straightforward, the Direct•Touch remote control offers four forward and reverse fan speeds, plus full-spectrum light dimming and advanced programmable features including Safe-Exit™, Home-Safe™, Fan Minder™ and Light Minder™. Includes CFL mode.

**Prime•Touch® (W-505)**

This hand-held remote for select fans provides three forward and reverse fan speeds, full-spectrum light dimming and memory. Includes wall plate bracket.

**Adapt•Touch™ (W-52)**

Adapt•Touch easily converts new or existing Casablanca 3-Speed and 4-Speed pullchain models equipped with an XTR200 canopy to remote control operation. Features include three fan speeds, instant off and full-range light dimming (on models equipped with a light fixture) will allow the push of your hand. The hand-held remote includes a switch plate bracket for wall mounting, and the receiver is quickly installed in the Hang•Tru® canopy. Use one Adapt•Touch to control several fans, or purchase extra controls to operate a fan from different locations. Note: The W-52 is not recommended for use in outdoor locations.

**WRF3-XX**

Three-speed remote control with full-range light dimming and reversing. Compatible with Four Seasons III and Four Seasons III Hugger.

**Single and Dual Rotary Controls (W-41, W-81)**

Optional accessory for 5-Speed and 6-Speed models. Provides four separate fan speeds, six industry cooling. Noise-free circuitry and quiet operation. Not for use on XTR1000. Includes wall plate bracket.

Optional accessory for 5-Speed and 6-Speed models with XTR200 and XLP-2000 motors. Provides four separate fan speeds, six industry cooling. Noise-free circuitry and quiet operation. Works with all Casablanca fans. Add Remote Control Convenience to Casablanca 3-Speed and 4-Speed pullchain models equipped with an XTR200 canopy to remote control operation. Features include three fan speeds, instant off and full-range light dimming (on models equipped with a light fixture) will allow the push of your hand. The hand-held remote includes a switch plate bracket for wall mounting, and the receiver is quickly installed in the Hang•Tru® canopy. Use one Adapt•Touch to control several fans, or purchase extra controls to operate a fan from different locations. Note: The W-52 is not recommended for use in outdoor locations.

**WRF3-XX**

The hand-held remote includes a switch plate bracket for wall mounting, and the receiver is quickly installed in the Hang•Tru® canopy. Use one Adapt•Touch to control several fans, or purchase extra controls to operate a fan from different locations. Note: The W-52 is not recommended for use in outdoor locations.
Casablanca makes installation a do-it-yourself, one-person operation. Casablanca’s patented Hang-Tru® hanging system supports the fan from the ceiling, leaving both hands free to make wiring connections. The self-centering ball makes sure the fan hangs straight, even on ceilings with up to 32-degree slope (for greater slopes, use a Sloped Ceiling Adapter).

Casablanca’s threaded Perma-Lock™ downrod locks the fan permanently in place and is the sturdiest, easiest to install downrod on the market. Higher ceilings? Casablanca offers optional downrods in lengths up to 96” to satisfy virtually any installation requirement.

**EXTRAS INCLUDED**

Everything you need is included with your Casablanca fan, including light bulbs, batteries for remotes, and even a handy screwdriver. Casablanca delivers “Quality In Every Detail.”

**ACCESSORIES**

**LOW CEILING ADAPTER (LCA-*)**

LCA-* (Limited Finishes). Reduces fan height by 3 1/2” from standard downrod (3” for Direct Drive models). (Canopy measures 2 3/4” x 6.25” diameter).

NOT for use with Academy, Academy Gallery, Alessandria, Atria, Bel Air, Bel Air Hals, Continental, Concentra, Four Seasons Hugger, Holliston, Isotope, Le Fleur, Le Grande, Malibu Star, Marrakesh, Mission, Modena II, New Orleans Centennial, 19th Century, Panama Hals, S3, Siena, Silhouette II, Stealth, Tercer, Trident, Vermont, Verrazano, Vita, Whitman, or Wilderness fans or Avalon blades. Also not for use with Cottage Wet, Exodra, Four Seasons III Outsider, Heritage, Lani, Panama Damp, Utopian, or Wailea when installed in a damp or wet location.

**SLOPED CEILING ADAPTER (SCA-P)**

Use Model SCA-P for slopes from 32 degrees to 56 degrees. If using the SCA-P with Academy, Academy Gallery, Bungalow, Holliston, Isotope, Le Fleur, Le Grande, Malibu Star, Marrakesh, Mission, Modena II, New Orleans Centennial, 19th Century, Panama Hals, S3, Siena, Silhouette II, Stealth, Tercer, Trident, Vermont, Verrazano, Vita, Whitman, or Wilderness fans or Avalon blades, you must purchase a Hang-Tru® canopy (Part #192220xx); specify finish to match fan. Use hanger pack included with fan.

**EXTENSION DOWNROD LENGTHS (MODEL PL*XX)**

6”, 12”, 18”, 24”, 36”, 48”, 60”, 72” and 96” (*= finish to match fan, xx= downrod length). See ceiling height/downrod length guide below.

**19TH CENTURY OUTER SLEEVE (RS69XX)**

Sleeve must be ordered with appropriate extension pipe.
- 8” sleeve for 12” pipe
- 14” sleeve for 18” pipe
- 20” sleeve for 24” pipe
- 26” sleeve for 30” pipe
- 32” sleeve for 36” pipe
- 44” sleeve for 48” pipe
- 56” sleeve for 60” pipe
- 68” sleeve for 72” pipe

**SUGGESTED EXTENSION DOWNRODS**

136 - CASABLANCAFANCO.COM
Casablanca fans are designed with "All-Weather" specialized molded blades with high-impact synthetic resins that will not warp. This ensures free performance. The blades on every Casablanca fan are inspected, matched for color and finish, and weighed to within one gram before being packaged as a set. These time-consuming steps are an essential component of Casablanca's uncompromising approach to quality. For more details, please refer to the BLADE SELECTION REFERENCE CHART and LIGHT FIXTURE REFERENCE CHART.
