Go Green with Energy Efficient LED
- 70% less energy consumption than incandescent lighting
- Long-life light emitting diodes (LED) provide approximately 40,000* hour life span or about 20 years of operation (*average 8 hours daily)
- Natural Color Output
Whether you live in the heart of the city — or your heart simply resides there — Urban Traditions takes metro style to sophisticated new heights. Geometric shapes inspire each piece: straight, curved, angular and always in style. All brought to life through clean, sleek finishes that flow beautifully into any modern space.

### Legend
- All bulbs are Medium Based Bulbs (E-26) unless otherwise noted.
- Bulbs are not included unless otherwise noted.
- Wattages stated are the maximum recommended; however, you may use lower wattage bulbs to suit your lighting needs. Some recommended bulbs are not available in the maximum allowable wattage.
- All electrical products are rated as 120-Volt, AC unless otherwise noted.
- All electrical products are UL listed.
- All products featured in outdoor section are Listed for Wet Location, except where noted.
- CSA certified items are available upon request. Please contact your Kichler representative.
- All chain drop products are equipped with at least 36” of chain.
- On some products, in order to accommodate higher than normal ceiling heights, extra lead wire is supplied and specified. With additional sections of chain (not included), this allows an added measure of design flexibility.
- Many manufacturers’ candelabra based lamps are not suitable for operation in BASE UP applications. We have determined that Sylvania® decor lamps are suitable without affecting performance.
- Floor lamps require some assembly.
- Many long life tungsten halogen capsule lamps are now available as alternatives to conventional incandescent light bulbs. At present, only the following are suitable for replacements in Kichler fixtures:

<table>
<thead>
<tr>
<th>General Electric®</th>
<th>Sylvania®</th>
<th>Philips®</th>

</tbody>
</table>

- The above halogen capsule lamps may be used to replace any lamp of a HIGHER wattage, but not to exceed the existing specified maximum wattage, i.e., 72-W. may replace a 75-W.
- Finishes for fixtures installed outdoors are subject to change due to prolonged exposure to sunlight, airborne pollutants and other forms of weathering.
- To serve you better, Kichler Lighting reserves the right to make improvements to the product in this catalog. Therefore, some products may change during the life of the catalog and the product information contained in this catalog may also have changed.

### California Title 20
To comply with the California Title 20 regulations, all portable lamps shipped into California are assessed a charge of $3 - $9 per lamp, dependant upon the quantity and types of CFL bulbs required for the lamp. To learn more about California Title 20 regulations visit [www.energy.ca.gov/appliances/2008rulemaking/2008-A4ER-1A/2008-08-29 Initial Statement of Reasons Part A.pdf](http://www.energy.ca.gov/appliances/2008rulemaking/2008-A4ER-1A/2008-08-29 Initial Statement of Reasons Part A.pdf). Specific prices on portable lamps shipped into California please consult the latest version of a Kichler price sheet.

### Power Limiting Device
To comply with the 2005 Federal Energy Policy Act, and maintain safety, Kichler Lamps and Accessories torchieres are supplied with a Power Limiting Device. The Power Limiting Device maintains the energy consumption to be “not more than 190 watts of power and shall not be capable of operating with bulbs that total more than 190 watts”. The Power Limiting Device shuts off the torchiere when more than the maximum 190W (wattage) is used.
