Westinghouse is quality and reliability. All of our products are engineered and tested to meet or exceed high-quality standards to light your home, office, or business with products you can count on to provide the lighting solutions you need and want. It’s light—your way.
Light your way…
with Westinghouse

Design meets comfort in the Westinghouse Lighting 2011 luminaire and ceiling fan line. Our latest products include exciting elements that unite to create a more beautiful, relaxed, or energy-efficient home.

Our foundation is based on developing products that enhance lifestyles. Generations have trusted Westinghouse to make comfort and convenience a priority in product development. We’re continuing that tradition today. Whether you’re looking for fashion-forward designs, Energy Star ratings, or reliable quality products, we have your lighting solutions right here.

Start with the DesignerYou mix-and-match program that lets consumers pick a lighting fixture, pair it with a glass shade, and add a light bulb which provides the light they want. Next, explore our latest ceiling fans, which now include ultra compact 24” styles, sleek designs, and new finishes. And don’t forget our expansive line of luminaires, featuring everything from basic to decorative architecture as well as traditional and contemporary finishes.

While you enjoy our newest editions, we’re already busy planning for the future by exploring innovative options and stylish designs that maximize form and function. In the meantime, if you need anything, our friendly customer relations team is here to help you find the perfect lighting solution.

It’s the Westinghouse way to provide light your way.
Customizable fixtures inspire creativity for quick and easy home upgrades. Pair stylish glass with sleek lighting fixtures or transform existing lighting with designer glass shades. It’s as easy as 1-2-3.

1 Choose your fixture and finish.

2 Choose your shade.

3 Enjoy your new custom lighting

Instant makeover
Bold colors
Eye-catching impact

The handcrafted nature of glassware will produce minor differences in design and sizing. Subtle variations will occur from piece to piece, adding to its unique qualities. Measurements may vary slightly.

Ceiling Fans

Low Ceilings
Install hugger ceiling fans or ceiling fans without a down rod in rooms with low ceilings.

Standard 8' Ceilings
Install ceiling fans with or without a down rod in rooms with standard 8' ceilings. See pages 62-63 to view our full assortment of extension down rods.

SELECT THE RIGHT SIZE FOR EVERY ROOM
Maximize air flow by installing an appropriately sized ceiling fan for your room.

<table>
<thead>
<tr>

Visit us on the web at westinghouselighting.com.
All ceiling fans in this catalog are UL or ETL listed.
Fashionable, high quality ceiling fans and light kits add comfort, color, and complementary style to any room. A trusted name for over 120 years, Westinghouse guarantees the construction of its ceiling fans with limited and ultimate lifetime warranties. You can be sure...if it’s Westinghouse.

High and Sloped Ceilings

Install ceiling fans with extension down rods in rooms with high and sloped ceilings. See pages 62-63 for a full assortment of extension down rods.

Indoor/Outdoor

In outdoor areas, install ceiling fans that are approved for use in damp or wet locations. See pages 50-53 to view our full assortment.

YEAR-ROUND COMFORT & EFFICIENCY

For year-round comfort and maximum energy savings, Westinghouse ceiling fans include a reversible switch that allows the ceiling fans to be used during cool or warm weather. In the summer, keep your home cool by running your ceiling fan counterclockwise. In the winter, run your ceiling fan clockwise to re-circulate warm air from the ceiling, eliminating cold spots and drafts.
Contemporary

Featuring a wide range of modern and transitional styles, the proprietary designs of our contemporary collection capture the essence of today’s lifestyle trends through exemplary designs and chic finishes.

Commercial environments need durable, reliable ceiling fans. From the easy-to-install J-Hook system industrial styles to the fashionable finishes of the contractor series, our fans have the quality you want and expect from an international brand.

**Industrial/ Contractor**

*WARNING:* Industrial ceiling fans are not recommended for use in any household applications. Severe injury can result if any part of the body comes in contact with the sharp metal blades of these fans. Because the industrial ceiling fans operate at higher speeds than traditional ceiling fans, they are required to be hung at least 10 feet above the floor.
**Industrial Collection**

• Installs quickly, even in pre-mounted fans

Max. Fan Amp 1.25
Max. Light 300 Watt

77874 Thermostat Ceiling Fan and Light Remote Control
• Operates 3 fan speeds (High / Medium / Low)
• Full range light dimmer
• Automatically turns fan on and off and sets speed based on room temperature
• Fan and light timers set fan and light independently to run from 1/2 hour to 24 hours
• Room exit feature turns light off three minutes after leaving
• Operates up to a distance of 40 feet
• Wireless - requires no hard wiring
• Installs quickly, even in pre-mounted fans
• Operates on (4) AAA batteries (not included)

120V/60hz
Max. Fan Amp 1.25
Max. Light 300 Watt
77872
Ceiling Fan Wall Control
• Operates 4 fan speeds (High / Medium High / Medium / Low)
• Turns any 3 speed fan into a 4 speed fan
• Replaces toggle switch
• Wall plate is included
• 2-Wire installation

120V/60hz
Max. Fan Amp 1.25
Max. Light 300 Watt

77873
Ceiling Fan Light Wall Control
• Operates 4 fan speeds (High / Medium High / Medium / Low)
• Full range light dimmer
• Turns any 3 speed fan into a 4 speed fan
• Installs in standard junction box
• Wall plate is included
• 2-Wire installation

120V/60hz
Max. Fan Amp 1.25
Max. Light 300 Watt

77875
Wireless Ceiling Fan and Light Wall Control
• Operates 3 fan speeds (High / Medium / Low)
• Full range touch-light dimmer
• Wall control adjusts fan speed and brightness
• Installs in standard wall junction box
• Universal receiver fits most ceiling fans
• Wall plate is included
• 3-Wire installation

120V/60hz
Max. Fan Amp 1.25
Max. Light 300 Watt
Extension Down Rods

For optimum performance, ceiling fan blades should be at least 7’ from the floor but no higher than 8-9’ in order to best cool a room.

For ceilings 9’ and higher, an extension down rod is required to bring the ceiling fan down to the proper height above the floor.

Antique Brass  Brushed Nickel  Polished Brass
Chrome  Oil Rubbed Bronze  Rustic Bronze  White
The chart above is provided for convenient selection of the correct extension down rod.

If a Combo Style Fan with a 6” Down Rod is Installed without the Down Rod, Subtract 5” from the Dimensions Listed (A, B, F).
Luminaires

Hanging Fixtures
A room’s centerpiece is often an exquisite chandelier or pendant. From contemporary to traditional, our styles add simple elegance to any room.

Wall
Lighting isn’t just for ceilings. Perfect for bathrooms, dining rooms, and hallways, wall accent lighting complements any room.

All luminaires in this catalog are Underwriter Laboratories Listed for safety. All Westinghouse luminaires are warranted against defects in material and workmanship for a period of five years from their purchase date.
Westinghouse offers fashionable, high-quality ceiling fans designed for every room in your home. In classic, traditional, contemporary and transitional designs, our durable ceiling fans complement changing style trends and suit every décor. A trusted name for more than 120 years, Westinghouse guarantees the construction of its ceiling fans with limited and lifetime warranties. You can be sure…if it’s Westinghouse.

Make the ordinary extraordinary with our selection of quality ceiling fixtures available in many styles, finishes, and sizes.

Lighting fixtures outside of a home make a statement of personality and add a finishing touch. Westinghouse’s variety of durable finishes and designs can change any home from drab to fab.
Every aspect of a room reflects style. From an elegant dining room to a kitchen bar, or a bedroom corner to two-story entry, Westinghouse offers a variety of hanging fixtures sure to complement any space.

From secure support braces and boxes to product enhancing ceiling medallions, accent lighting, and lamps, Westinghouse offers a full line of accessories to complement and complete any ceiling fan and luminaire installation.

Ceiling Fan & Luminaire Accessories
For Remodel or New Construction Applications

- Fits 16" to 24" ceiling joists
- Patented design provides fast fingertip expansion and positive attachment to joists
- Fits all ceiling fans
- Installs without attic access in four easy steps
- For fixture support of 150 lbs. or less on 16" centers
- For fixture support of 50 lbs. or less on 24" centers
- Acceptable for fan support of 70 lbs. or less

Step 1
Easy installation from below ceiling through any 4" diameter hole.

Step 2
Install end “A” by turning unit clockwise and applying pressure toward the ceiling joist.

Step 3
Slide unit toward other joist and again apply clockwise pressure.

Step 4
Attach electrical box and install fan or lighting fixture per manufacturer’s instructions.

Saf-T-Brace®

Patented Technology
US Patent No. 4,909,405
165,254
5,860,548

Includes Mounting Hardware & Instructions
Saf-T-Cap® to protect bolts and wires during painting and sheetrock installation
Mounting hardware and wire bushing

Step 1
Step 2
Step 3
Step 4

Meets or exceeds UL standards regarding exposed threads within box. Meets or exceeds NEC® safety codes.
Saf-T-Brace®

Meets or exceeds UL standards regarding exposed threads within box. Meets or exceeds NEC® safety codes.

Step 1
Easy installation from below ceiling through any 4” diameter hole.

Step 2
Rotate bar until teeth are fully embedded into joist.

Step 3
Attach electrical box and install fan or lighting fixture per manufacturer’s instructions.

For Remodel or New Construction Applications
• Fits 16” to 24” ceiling joists
• Patented design provides fast fingertip expansion and positive attachment to joists
• Fits all ceiling fans
• Installs without attic access in three easy steps
• For fixture support of 150 lbs. or less on 16” centers
• For fixture support of 50 lbs. or less on 24” centers

4 ⅝"

Ceiling fan or lighting fixture attaches to structure support, not to plastic.

Clips inside box hold screws during initial installation.

Mounting hardware and wire bushing.

PATENTED TECHNOLOGY
US PATENT NO. 5,762,223

Visit us on the web at westinghouselighting.com.
For New Construction or for Applications Where Attic is Accessible

- Adjustable for all size ceiling joists
- Can be installed easily in upper attic space
- Includes certificate of installation for building inspectors
- UL listed for fixture support of 800 lbs. or less
- Developed by a licensed contractor to provide a safe and fast way to install heavy chandeliers and fixtures

SUPPORT BRACES AND BOXES

Includes Mounting Hardware and Instructions

- Fixture coupler with grounding wire
- 15” threaded rod
- 3/4” box nuts
- Allen wrench
- Cotter pin
- Wood screws
- Spring washer
- 3/4” flat washers

Pre-assembled adjustable mounting brackets

01800
Heavy Chandelier and Fixture Brace

No weight is applied to the electrical box. Hercules™ transfers the total weight of the fixture to the upper ceiling joist structure.

Meets or exceeds UL standards regarding exposed threads within box. Meets or exceeds NEC® safety codes.
Choosing a Medallion
Polyurethane resembles traditional plaster medallions
• Lightweight polyurethane medallions can be installed finished or unfinished.
• Available in well-known architectural styles to complement molding or other architectural details.
• Installation hardware is included in all Westinghouse ceiling medallions.
• For use with ceiling fans or lighting fixtures.
• Easily drilled or screwed.
• Will not warp, split or splinter.
• Easily caulked or spackled to hide installation hardware.

Selecting the Right Size
Consider three factors when selecting the appropriate size ceiling medallion.
Fan or Fixture Size
• Medallions should be smaller or larger than the diameter of your ceiling fan or lighting fixture. They should not be the same size.

Ceiling Height
• Higher ceilings can accommodate larger medallions.
• 28” or larger medallions complement a two-story foyer.

Room Size
• Large rooms accommodate large medallions.
• For a typical dining room with an 8’ to 9’ ceiling, an 18” to 26” diameter medallion works well.
Polyurethane Medallions

Includes mounting hardware:
- 1 - 3" ⅛-IP nipple
- 2 - 2" ⅜ crossbar screws
- 3 - 1 ½" drywall screws

Lamps

**Energy Saving LEDs**
Choose LEDs for high performance, high quality lighting. LEDs maximize savings and offer long life in a traditionally-shaped lamp.

*Replace Standard A19 Shape Lamps.*

**Energy Saving CFLs**
Energy-efficient CFLs now come in smaller sizes for a better fit in lighting fixtures and ceiling fan light kits.

*Available in a variety of wattages, CFLs offer the perfect light output for any application.*

*Replace Standard A19 or Torpedo Shape Lamps.*

**Halogen**
Halogen lamps offer bright white light and quality output.

**Eco-Halogen**
These lamps provide the same bright white light as a standard halogen lamp while significantly reducing energy consumption in a completely dimmable style.

*Replace Standard A19 Shape Lamps.*

**Incandescent**
Traditional lamps provide the warm color light, familiar shapes, and variety of wattages that convey familiarity and comfort in any home.
