ET2 Contemporary Lighting
A natural wonder sculpted in glass, Cascada evokes the feeling of a rain shower in a graceful swirl of Egyptian crystal spheres. The rainfall that is evoked by the large and small crystals is made possible by their suspension from strands of sheer monofilament that hang in natural torrents from a chrome flush mounted canopy with puffed metal-frented trim. A conversation piece wherever it's placed, Cascada is illuminated drama on a grand scale.
Dripping with sheer elegance, Crystal Sensation bejewels a room with exquisite diamond pendants delicately draped from a curvaceous and sleek chrome neckline. Each graceful strand of Egyptian crystal brilliantly reflects light from the next, culminating in a mesmerizing play of sparkle and glow.
“Design is so simple, that’s why it is so complicated.” Nothing proves this point as well as this elegant pendant. Prisms is comprised of simple, solid crystal rods with integrated lamp holders, elegantly suspended by aircraft cables. This low-voltage masterwork quietly boasts a chrome finish and invites multiple applications to increase the simplicity of its functional grace.

Consider the bare essentials taken to their ultimate conclusion and you will have no trouble understanding stars of light.

The eye focuses immediately on the thin, optical Freundlich glass strands whose lopped surface diverts the illuminated source within an infinite number of reflecting planes. The result is a stunning light display.

As cool, glossy ice reflects the darks and ligths filtering through a highball of fine liqueur, Neo's clear and lead-free crystal cubes take on the hues and tones of the room they inhabit. Weighty and dense, each crystal envelops its own bulb, illuminating it from within, and suspends from sleek, adjustable cables for endless options.

A new look at a classic silhouette, Chic brings light into your dining room with an elegant combination of candle-like G9 Xenon lights shrouded in conical clear glass shades. Each of the fluid chrome curves enhances the organic simplicity of the sleek and stylish design as they flow into adjustable stems. A noteworthy addition to the most elegant or most contemporary room setting. Now let the festivities begin.

A simple idea gracefully executed. Row upon row of clear oversized teardrops, mounted onto an extended chrome lamp holder that supports Xenon lamps sets the stage. Individually adjustable drops for custom stagger effects allow for dramatic impact. An added benefit of each drop being aircraft cable-suspended is the ability to adjust the overall height of the piece to fit the space. The overall result is stark and stunning.

The science of lighting makes a statement of contemporary and lavish scale. A perfect formula of hurricane shades intermixed with laboratory inspired glass accents with suspended crystal cones delivers on the promise of a future here and now. The exquisite chrome-plated ring provides a clear solution to suspension without any visible supplementary power cords to compromise the scientific design equation.

The ultra-contemporary tendril shapes of this hand-blown clear glass masterpiece are complemented by Egyptian crystals and steel-made chrome plated tubing. The tubing is hand formed into an elaborate scrollwork to complement the conical glass lamp sheaths. On the practical side, this piece features strain relief engineering, low voltage, adjustable aircraft cable suspension for variable height and clear-jacketed visible power cord. Ideal for entryway or dining area, Belleza will make a statement that will be hard to forget.

A modern take on a classic design. Sweeping French curves in sparkling chrome. Elegant metallic tapers are topped with flame-shaped G4 20w lamps and accented by crystal bobaches. Crowned by glass disks and detailed by black crystal inverted cones, this Louis XIV-inspired modern French masterpiece will bring out the elegance in any room setting in a statement that befits the most regal of tastes on a palatial scale.
In a brilliant showcase of positive and negative space, Zion diffuses energy-saving fluorescent light through frosted acrylic panels encased by laser cut chrome intersecting shards of chrome sprawl in a latticework of crystalline-like structures, offering a scintillating contrast to the Lucite lens beneath. The effect brings a pleasing softness to the sharp geometric lines.
A splash of reflections created by dozens of cascading, reflective bent-chrome stripes, bounce light around in marvelous ways from this multi-light pendant. Chrome arms with Xenon lamps at the end create a "spidery feel," while the domed chrome body conceals the means for adjustable height.

Kinetic energy expressed in light. Free-form and free-flowing illuminated sculpture that adds a touch of the unique to any room it graces. Celeste provides glamour, featuring crystal glass elements emerging from a metal body and set off with a chrome finish. This ultra-modern piece features an assortment of extended arms, which follow a free-form spiraling pattern. On each of the arms, a series of small, flat crystals catch the light projected by a series of Xenon lights that are placed throughout the design to maximize the yield of light.

Like a translucent sheath delicately draped around the female form, Conico floats a delicate creamy frosted panel of glass over a slender metal rod like a sophisticated designer dress awaiting the red carpet. A study in simplicity, the hourglass shape and understated light speak of classic sophistication and impeccable taste.
This stunning trio of executive light sources elevates the mundane desk lamp from a workhorse to a thoroughbred. From stately acrylic to gleaming chrome, from the crisp angles of beveled glass to the graceful movement of sweeping lines, these lamps bring a whole new light to the task at hand.

Atop a transparent base, slender metal bars rise from a thin chrome plate that appears to float unanchored across the desk. Straight and true, the narrow tubes climb vertically before making a final right angle. The balancing act culminates in two LED lights towering overhead and to shine on the task at hand.
A visit to the dictionary under elegant is sure to find a picture of this exquisite single light floor or table lamp. The striking hardback shade provides the perfect detail for any eclectic room, as the synthetic strings complete the desired effect. An elegant adjustable mechanism for a wide variety of vertical or horizontal positions sports a satin nickel finish that dresses up wherever it stands.

Special effects on high. This distinctive design creates an infinity effect by using the laws of physics and the reflective properties of two opposing, smoked one-way mirrors. Images of the lights and colored crystals mounted in chrome frames are sent from zero to infinity and back again. Truly a new age conversation piece that bridges into the next dimension.

Emerging from an elegantly poised silver-plated base, hand-cut beveled optic crystals in rich jeweled tones rise and crest like the delicate feathers of a rare tropical bird. Each curve and arm artfully attracts and reflects light in an exquisite dance that seems to take on a life of its own, becoming the center of attention in any room.

Long, narrow slats of satin aluminum span a polished linear path. At precise intervals, crisp LED lights shine from within individually adjustable heads, creating an ever-changing show of beams and reflections. Suspended from simple metallic strands, Legacy makes a bold, yet unpretentious, statement.
Clean, simple lines of reflective chrome reach out in bold parallel tracks and crossed geometric angles to present a skilfully technical look. Adding innovation to the equation, segments of multiple LEDs pivot independently, directing light in enumerable configurations.

Subtle and sleek, Hagen suspends thin disks of beveled glass from barely visible strands of filament. Each disk holds a cool LED light that plays across the surface of the glass and culminates in a crisp ring of beveled luminescence. In single and four-light pendants, Hagen ships unobtrusively into contemporary, sophisticated settings.

Masterful minimalism. The simplicity of Linea’s perfect circle and square sconces creates the ideal stage to showcase the luscious, thick frosted glass that illuminates its hidden double LEDs. The diffused light emanates from behind a sleek bar of brushed aluminum for a stunning effect.
Descending from a glossy chrome sphere, orbs of frosted light wrapped in bands of matte silver hover over the room like celestial moons casting a warm glow throughout the room. Whether hung as a pendant or emerging from a wall mount, each globe floats along a linear path gently radiating soft light above and below.

Designed to inspire the "Wow Factor," Carnivale is an outlandish take on the classic chandelier. Set in a bevy of black translucent faux fleur-de-lis trimmed in clear acrylic, the single tear-shaped a26 light source is reflected in a swirl of pear-inspired crystals. The only thing more remarkable than the impact of this opulent pendant lamp is its decidedly down-to-earth price. Certainly not for the weak of heart, Carnivale has no problem living up to its name.

The essence of the streamlined movement. Alumina provides you with the perfect flush mounted application for foyer or hallway, bath or walk-in. This timeless yet contemporary energy efficient design piece combines the classic elements of chrome and black anodized rings encasing an inner acrylic illuminated cave. Now you can add a dramatic lighting accent in a singular Air optimum fixture or a stunning row. And the low-level illumination assures ease of upkeep and minimum energy usage.
Inspired by the bygone era of private floor lamps, bespeaking hushed elegance. Featuring a combined aluminum steel counterbalance, an adjustable skunk enables you to vary the height for the perfect page illumination.
stainless steel wall mount entertaining. The fixture is a decorative conversation piece. The full-spectrum suspension system that makes this contemporary fixture unique is made of an adjustable height cable. The chrome metal body features a unique design composed of chrome balls and rods and an adjustable height cable. The fixture is accented by lead crystal bobeches that feature slanted white faceted-glass Hobnail. Your glasses on high to this collection.
Bold domes in glossy white, satiny nickel, or matte black descend from the ceiling on strong metal rods. The five-foot drop makes a dramatic entrance into the space and effectively illuminates the scene. Whether a solitary soldier or multiples lined up for duty, these stately light sources communicate confidence and class in any setting.

Illumination on ice best describes this contemporary collection. Exquisite design hallmarked by clear-glass cylinders nested in frosted-glass cylinders, accented by chrome ring spacers deliver on the promise of chic. With each light individually hung, this fixture provides 50w of illumination from each lamp for high-key drama that is perfect for kitchen utility or dining elegance.
The perfect graphic statement for the long corridor or dramatic entryway. The mod glass cylinders that cover the entire lighting fixture give the impression of high technology at work. Complemented by a chrome tubular frame that houses two adjustable Pyrex spot headers, Flash is designed to impress in the design of the fixture and the throw of its light source. Equally at home in the residential or commercial setting, this collection covers all the bases with quiet, utilitarian elegance.

"Beam me up Scotty," because this collection looks like it came from a trek to the stars.

Stark and dramatic at the same time, this engineering marvel is made up of 3 levels of stacked thick beveled glass completely hung on a chrome housing that contains the Xenon lamps. The perfect application for a modern kitchen or a workstation in the distant future, the impression it gives is out of this world.

Precisely stacked beveled glass symmetrically positioned in a linear design evokes images of grand city skylines. As the bevels reflect light from within, above, and below, each facet takes on new depths and hues that draw the eye and inspire the senses. The architectural pattern brings a modern edge to a classic 1980s style.
Inspired by our visions of visitors from other galaxies, Curva is a study in minimalist design and maximum functionality. In every aspect of its conceptual elegance, the perfectly proportioned curves and exquisitely selected materials harken to the deco interpretation of our modern age. The thick, beveled, polished glass stream merges perfectly with the opal bent glass shade. The brushed steel and chrome support hardware complete the statement with utilitarian simplicity.

ORACLE
This one-light trestle collection features a thick glass plate with polished edges accented by chrome hardware plugs and a satin nickel finish that frames a clear/white shade. The single 14W fluorescent light fixture assures energy saving operation and the cable-suspension system of the pendants add to the contemporary flare. Perfect for the kitchen island or the well-designed workspace.

It could certainly pass muster in any room within the intelligence community. The dramatic yet stark 4- or 6-light pendant — with its aluminum frame and lighted aluminum cylindrical-tube housings with frosted-glass trim, which seals the Xenon lamps — quietly shines inconspicuous ambient and directed illumination in the stealest of fashions.

Think Simple. That idea is certainly at the heart of this flush mounted-ceiling series. Comprised of a disc of nickel metal that includes three simple chrome screw sets designed to hold a sandblasted glass diffuser, this Xenon-illuminated lighting fixture makes a quiet statement of the value of efficient design.

The essence of clean design is simplicity of function. This austere lighting series features adjustable halogen spotlights and is available in curved or straight styles. Available in both nickel or bronze finishes for maximum adaptability, Argon promises to be an instant classic. This unique streamlined design is also surprisingly affordable. Ideal for either singular or multiple installations, Argon is the ideal application for dramatic lighting at reasonable cost.

A visual symphony of shapes and curves combined in an organic illuminated tourde-force. This unique pendant combines crystal-covered lights with an abundant assortment of crystal disks and colored acrylic accent rings to make the sylvan metaphor complete. Available in chrome or bronze finish, this lighting fantasy provides the perfect accent to any naturethemed interior. This highly original design comes in a variety of ceiling, flush mounted or wall mounted applications.

Each of these exquisite chandeliers has the potential to be as unique as the imagination of its owner. The fully-adjustable free form chrome stems can be configured in any shape or curve. The free form glass shades can be directed in any position. This amazing flexibility provides for an instant conversation piece or the maximum utilization of 20 watt light at the source.
Contemporary design fuses with historic craftsmanship in this amazing ball of light, glass and chrome. The floral sphere is comprised of hand-formed, clear Murano glass petals mounted on individual arms, with simple spherical finials for the look of an illuminated hydrangea suspended in space. If you are looking to make a statement this beautiful accent speaks louder than words.

This bouquet of light and hand-blown amber painted glass begins as an entwined trunk of stems, then branches into a swirl of 20w illuminated glass shades accented with petite gold leaves, vines and petals. Each graceful stem sends illumination in another direction, giving the illusion of a plant-form in bloom with light. The floral Art Nouveau style of this series provides the perfect accent for the most eclectic of room settings.

Crafted in a mystical forest where light blooms, this collection demands attention. Every detail sparkles with originality. The intricate branch design resolves itself with elegant floral, hand-pulled glass blossom shades, sculpted from clear and amber glass. The vine-like branches and tendrils alike are finished in antiqued Flemish-gold patina. Branches bear the fruit of leafshaped Egyptian crystals suspended from berries of gold. Engineered for practicality, the aircraft cable suspension of the pendants allows adjustable height via a quick release mechanism.

Return to the days of yesteryear. Bloom is proof positive that elegance can be achieved on a budget. Highly decorative in nature, the historic Galle feel provides the perfect dining-room centerpiece.

The elegant floral glass shades and hanging crystal teardrops whisper hints of heirlooms and the treasures of a bygone era. An amazing metallic finish of either bronze patina or antique Flemish copper adds elegance to the gently curving stems that support both crystal and lamp.

Like golden ribbons of drizzled honey, soft abstract embossed lines on this amber glass cylinder pendant catch the warmth and depth of the light within. Choose white glass, and the effect cools considerably, becoming a fascinating study in glacial fluidity. A single slender rod suspends the shade from a smooth, chrome disk.
The wall sconce defined in this elegant single-light solution presents a trumpet shape defined in blown white or amber glass that mounts to a satin nickel bracket set off with chrome finials. This handsome mid-level lighting fixture also provides an open bottom for the perfect down light accent.

Inspired by the Action Paintings of the Abstract Expressionist Movement, this highly original graphic series comes in a variety of shapes. Available in amber or red glass, each shade is emblazoned with white glass that has been trailed in a one-of-a-kind design that is fused onto the surface of each unique piece. The raw, hand-created feeling of this piece makes it as much art as lighting fixture in every sense of the word.
Variety is indeed the spice of life. Nothing proves that more than this amazing collection of hand-blown, colored accent, single light pendants. Readily available in a wide variety of colors and shapes, Hue pendants reveal its color when the light is on. Each glass shade is covered with impressed glass veins that accent the surface. Consider mixing and matching an array of shapes and hues for a lighting solution that will be limited only by the heights to which your imagination can soar.

Inspired by the small disks of glass that are used as ornaments in stained glass windows, this single light pendant presents a simple and clean cylindrical glass canopy accented by chrome hardware and featuring adjustable height for maximum adaptability. Consider it the perfect lighting solution for bar, bathroom, kitchen island or pool table.

*Glass Canopy
Circle meets the square in this utilitarian design:
A choice of bevel-cut, square or round metal base, with or without a shade, from a selection of clear or frosted glass. The perfect choice for any room in the house, from study or living room to contemporary apartment or office. The light is delivered by a design that is both stylish and functional.
Bold color combined with simple curves defines the essence of the Caps series of pendant and wall lighting fixtures. The exquisite glass canopy of Caps is available in five colors set off with white-cased support fixtures perfectly in tune with its mini shroom proportions. Equally suited for residential or commercial applications flying solo or in multiple formations, Caps provide a well-designed understatement for wall or ceiling.

The night they invented champagne, they also inspired this simple yet elegant homage to the flute. This colored glass pendant is available in four colors in both single and multiple applications. A beautifully realized glass canopy emits a cylinder of light that is perfect for illuminating kitchen, countertop or bar while suspended by a satin mount.
Like night and day, sun and moon—Amphora captures the beauty and power of opposites. A tall cylinder of frosted white glass emanating a soft white glow gently nestles a shorter opaque vase in black or red within the sleek curve of its body. The juxtaposition of contrasts and the complement of light and life illuminate the mind and the senses.

In the sensuous silhouette of an elegant bottle of wine, Flagon brings new light to the familiar form. In red gloss, warm light plays across its smooth surface like glowing embers; in blue gloss, cool waves of serenity set the mood, and white matte makes a clean, sophisticated statement.

*Cased Glass
A burst of vibrant color powered by light. This Mod Era electric blue, amber or white blown-glass shade resonates with its crackle finish, while inside a satin nickel sphere stuffed with 10 Xenon lamps brings each hue to life. Optical ribbed detailing and adjustable height are just a few of the features that enhance the value of this stunning piece of design excellence.

A series of slender tubes telescope toward a sleek shaft of cobalt or amber, culminating in a frosted cylinder aflame with glowing light. Reminiscent of a classic Olympic torch, this delicate pendant updates the Grecian symbol of spirit, knowledge, and life with contemporary lines and urban styling.
An indoor starburst of crystal and chrome, Stellar’s scintillating light dazzles any room. The pendant features 14 shooting amber stars orbiting a chrome-plated planetary sphere all hung in delicate balance by a slim metal rod gently embraced by a graceful spiral.
High style at a low price. The frosted, white glass shade provides a hint of bygone eras while the satin nickel surface bring it right up to the design aesthetic of today. All of that and affordable pricing add up to a combination that is hard to beat.
